PREVIUOS PROJECTS

Developer

Phoenix Movie App

-  2024
-  Gaza
- Developed a React.js-based application that displays movie information fetched from the IMDb API
 - Implemented features such as dynamic search, movie details, and responsive design using Bootstrap
 - Technologies Used: React.js, Bootstrap, React Router

Front-End Development Trainee

Food Recip App

-  2024
-  Gaza
- Built a React.js-based website that fetches food data from an API and displays recipes based on user search
 - Features include ingredient lists, recipe details, and a user-friendly interface
 - Technologies Used: React.js, Bootstrap, React Router
 - Completed an intensive Front-End Development course, enhancing my skills in HTML, CSS, JavaScript, and React.js
 - Currently undergoing advanced training in React.js and Next.js to further improve my expertise
 - Developed multiple projects during training to practice and refine my coding skills

EDUCATION

Bachelor of Science in Software Engineering

Palestine University

 05/2025 - 05/2025

 Gaza, Palestine

English Access Microscholarship Program

Amideast

 2017 - 2019

 Gaza

SKILLS

UX/UI	API	Bootstrap	CSS	Data Structures
Tailwind css	Debugging	Front-end	Git	Github
HTML	Java	Javascript	Next.js	
Object-oriented Programming	Python	React Router		
React.js	Communication	Teamworfi and Collaboration		
Problem-Solving	Adaptability	Time Management		
Attention to Detail	Critical Thinfiing	User-Centric Mindset		

SUMMARY

I am Faisal Mohamed Abu Zakari, a 22-year-old Software Engineering student from Gaza, Palestine. A high-achieving graduate of Al-Shohadaa High School (93.4%), I earned a partially funded scholarship at the University of Palestine, which I have maintained for four years by consistently ranking at the top of my class. Passionate about building innovative and user-friendly applications. My goal is to secure a training opportunity where I can apply my technical skills, contribute to impactful projects, and further enhance my expertise in software development.
